

SIMPLIFLOW AI LLC

AI automation & custom software studio

Veteran-owned · SBA VOSB certified

Wilmen Gil, Managing Member

Suwanee, GA · Congressional District GA-09

govcon@simpliflow.ai · <https://simpliflow.ai>

CORE COMPETENCIES

- **Custom software development, full stack.** TypeScript/Node, React, Go, Python. REST and GraphQL APIs, microservices, production web applications.
- **AI and LLM-assisted workflow automation.** Document and data intake, classification, routing, validation and action, built with human-in-the-loop guardrails so results stay auditable.
- **Legacy application modernization.** Refactoring and rebuilding aging tools into containerized, cloud-native services without stopping the business that depends on them.
- **Data engineering and systems integration.** ETL pipelines, PostgreSQL, MySQL, MongoDB, Redis. Connecting siloed systems into one authoritative source of record.
- **Cloud and DevOps.** AWS (principal holds AWS Certified Developer – Associate), Docker, Kubernetes, CI/CD, infrastructure as code, secure and repeatable deployment.
- **Microsoft 365 and Power Platform automation.** SharePoint, Power Automate, Office Scripts, Microsoft Graph.

DIFFERENTIATORS

- **Veteran-founded and owner-operated.** The engineer who writes the code is the one who answers the phone. No account layer, no hand-off to an offshore bench.
- **Company record short, engineering record long.** SimpliFlow AI LLC was organized in 2025; its own contract record is stated in full below, beside the principal's 12+ years in senior and lead roles.
- **Dual-use by construction.** The same automation stack that removes manual back-office work for commercial clients maps directly onto federal administrative and data-integration workloads.

PAST PERFORMANCE (SIMPLIFLOW AI LLC)

Sangha Unity Network (*Georgia nonprofit*) · SUN Phase 1: contact data consolidation platform

Contract executed 04/17/2026. Designed and built a Microsoft 365-native system (TypeScript/Node, Office Scripts, Power Automate, SharePoint) that consolidated roughly 23,600 contact records from disconnected sources into one deduplicated production list, with automated ongoing sync. Delivered fixed-fee.

Client reference available on request.

PRIOR CONTRACT EXPERIENCE (PRINCIPAL)

All through The Union LLC (d/b/a Advanced Studio 1, later git.solutions), the principal's own firm until July 2025.

FlexShopper, Inc. (NASDAQ: FPAY, lease-to-own consumer finance and e-commerce)

01/2018 to 07/2020. Outside engineering contractor for two and a half years, across ten repositories of the production platform: PHP services, an Angular administrative application, and Node microservices.

Historic Virginia Key Beach Park Trust (*public trust established by the City of Miami Commission*)

2019 to 2020. Built and handed over the Trust's public site, with hosting and a handover that lets non-technical staff maintain it.

Mayors Jewelers / Birks Group (*luxury retail, two brands*)

2014. Repair and service management system: multi-step workshop workflow, per-brand store numbering across two retail networks, vendor routing and invoicing.
